

Post-Acute Care Program

Effective **August 1, 2020**, Healthfirst will manage all Post-Acute Care (PAC) authorizations for Medicare Advantage plan members. eviCore healthcare (eviCore) will no longer manage PAC authorizations through the eviCore PAC Program. However, eviCore will continue to manage radiation therapy and radiology (rad/rt) services.

You can submit authorization requests to Healthfirst starting on July 31, 2020 for dates of service beginning August 1, 2020.

For more information, including how to check authorization status, visit our [PAC Program FAQs](#).

If you have questions about requesting authorizations or need more information, contact Healthfirst's Utilization Management team at **1-646-327-4327**.
